

# WhatsApp Group Messages - Android

Last Modified on 11/14/2023 12:59 pm EST

Read on to learn about group messaging with WhatsApp Messaging Connector in the Multiline Android app.

#### **Overview**

Group messaging allows multiple MultiLine users to contact a single WhatsApp user. You can transfer the user to another MultiLine user, leave a conversation with that user, remove the participant, or restart a conversation with that user.

#### **Create a Group Message**

To send a group message, go to your existing conversation with the user.

1. The **Details** menu is in the upper righthand of the screen. For iOS, tap the Information icon. For Android, tap the Settings menu icon.

2. Tap Add User to Conversation.

4. Confirm with **Yes**.

You will see:

You have removed Samuel Johnson from the conversation.

Other MultiLine users in the group chat will see:

## **Restarting a Conversation**

If you would like to restart a conversation that you left, you can send a new opt-in message. Send a new message by tapping the WhatsApp message icon in the Contact's details.
